Venture:
Dialysis Innovations

Dialysis Innovations develops novel, innovative, life changing solutions to end-stage kidney patients through elegant and high impact medical solutions at low cost. Our first product, the DialySafe Needle, is a smart dialysis needle that ensures accurate cannulation and reduces inadvertent puncturing of the back vein wall thus, dramatically enhancing the patient and provider experience at lower cumulative costs.

About Karthik

Why Entrepreneurship?
It provides the opportunity to innovate, collaborate, and make a meaningful impact on society and to lead from the front.

Fun Fact
I love to travel and hike and recently made it a goal to hike at all national parks over the next 3 years.

Support Needed
Support needed for introductions/networking to obtain funding to scale the enterprise.
