## About Matthew

### Why Entrepreneurship?

Because I want to have a hand in fixing the issues that plague industries at every level and every step along the process. Having worked at major companies in key places in their industry, I've come to see that the only way to fix these problems is by building new companies that challenge the status quo.

### Fun Fact

I've been in the national Philippines news as part of my MAP project.

### Support Needed

Introductions to investors that are interested in the games industry but maybe haven't taken the jump yet. Marketing expertise on how to reach an audience in low cost ways. Warm introductions to game developers and publishers.
